Miami County Federal Population Census
1850

****

Contains, Names, Age, Occupation and Place of Birth of every person living in Miami County, Ohio in the year 1850

Introduction

****

In this volume you will find each Township and index for that Township numbered separately. The indexes are all bound together in the front of the book in alphabetical order with the name of the Township printed on the bottom of each page. The Townships are bound following the index also in alphabetical order with the name of each Township printed on the bottom of each page.

If you are looking for some one and you do not which Township they were living in, be sure to search the index for each Township.

The 1850 census contained herein, has been copied from micro film which has been copied on to micro film from the original census records. The original, done in long hand, is hard to read and hard to understand what the census taker had put down. You will notice mistakes, misspelled words including surnames, etc. This is not the fault of the compiler as every effort has been made to keep this census as near original as possible. If you find any thing you question, it is best to look it up on the original micro film for conformation.

MIAMI COUNTY POPULATION CENSUS
1850

****

By an act of the Ohio Legislature, passed January 16, 1807, Miami County was established, from the lands of northern Montgomery County, April 1, 1807.

The name "Miami" is taken from the name of the river which flows entirely through the county from the north to south. The river derives its name from an Indian word meaning "Mother".
